AMERICAS

Texprocess Americas is the largest B2B platform in the Americas for sewn products, equipment, and software for the clothing and textile processing industry. For three days, suppliers will come together with leading manufacturers, business owners and industry professionals from all over the world to explore new business prospects, discuss the newest innovations and expand into new markets. Texprocess Americas is the premier trade platform for the Sewn Products industry, so mark your calendar for May 17-19, 2022, in Atlanta, Georgia.

“This year’s show was definitely worth our company’s time and money. It has been really interesting to learn about the communication between the industries and how they are working together to make sure there are no blind spots. The focus on Industry 4.0 - and the communication between the fabrics, the machine, the human, the CAD system, and all of that.”

—Sharon Tedesco, Abigail & Company
